STABILIZED HEADS

SHOTOVER - G1

A lightweight, weather resistant, gyro-stabilized gimbal platform that delivers unshakable stability with ultimate functionality. The SHOTOVER G1 can quickly be mounted on motorcycles, tracking vehicles, cranes, cables and almost anything that moves.

DJI - RONIN 2

The versatile Ronin 2 3-axis gimbal from DJI is suitable for use either handheld or mounted in a variety of ways including onto a drone, Steadicam, vehicle mount, and more. Various accessories from CineMilled and Ignite Digi are included in the kit and provide a vast amount of rigging setups and options.

FLIGHT HEAD APEX

Three axis Flight Head Apex engineered for superior filming performance and is one of the most compact, highly versatile and effective stabilized remote heads on the market. Apex offers smooth and responsive control eliminating camera shakes and vibration during fast and rough moves. Its open architecture and user friendly design make it the remote head of choice for a wide range of tracking shots. Works on all types of camera cranes, arms, dollies, high speed tracking systems, camera cars, cablecams, etc.

CAR RIGS

BLACK-TEK TOWER

The Black-Tek Tower is a vertical Lifter for the SHOTOVER G1. It can be mounted on either the OFFROAD Extreme Nissan Navara with 38 inch modification tires and FOX shock absorbers or Mercedes Benz ML55 Track car for tarmac. It is optimized for HighSpeed use and quick change over.

BLACK-TEK TOWER DETAILS

- Total weight of Tower & Shockabsorber: 28 kg
- Maximum payload of the AbsorberArm: 20 kg
- 1,6 m Height / 1,3 m Traveldistance
- Variable Speed up to 0,8 m/s (about 2 sec for 130 cm)
- Manually rotatable position in 45 deg steps by simply pulling the quick release pins in the twister plates
- A cablechain inside the Tower guides the command, power and video cable for the remotehead
- Internal weight balancing system helps to reduce power consumption
- Mitchellplate as base on the shock-absorber
- A heavy duty transportation bag protects the Tower
- Wired remote control for selecting speed and position
- Can be mounted on 33mm CarRig pipes
- Powered from 24V up to 48V
- Can be used as a motorized horizontal slider

Components:

- Motorized LiftTower
- ShockAbsorber arm
- Internal Cabeling for SHOTOVER G1
- Twister-Plates
- Transportation Bag
- Transportation Box
